2. Details of the credit facilities are attached in **Annexure I**. Our rating symbols for long-term and short-term ratings and explanatory notes thereon are attached in **Annexure II**.
3. The press release for the rating(s) will be communicated to you shortly.
4. If the **proposed long term / short term facility/Instrument** (if any) is not availed within a period of six months / three months respectively from the date of this letter, then the rating may please be revalidated from us before availing the facility to maximum period of six months only from date of communication of rating.
5. The above rating is normally valid for a period of one year from the date of **rating committee** (that is. **March 22, 2027**).
6. INFOMERICS reserves the right to undertake a surveillance/review of the ratings from time to time, based on circumstances warranting such review, subject to at least one such review/surveillance every year.
7. A formal surveillance/review of the rating is normally conducted within 12 months from the date of initial rating/last review of the rating. However, INFOMERICS reserves the right to undertake a surveillance/review of the rating more than once a year if in the opinion of INFOMERICS, circumstances warrant such surveillance/review.
8. **You shall provide us a No Default Statement as at the last date of the month on the first date of succeeding month without fail.** The NDS shall be mailed every month to [nds@Infomerics.com](mailto:nds@Infomerics.com) and to the mail id of the undersigned.
9. **You shall provide the quarterly performance results/quarterly operational data (being submitted to Banks) to us within 6 weeks from the close of each calendar quarter for our review/monitoring.**
10. You shall furnish all material information and any other information called for by INFOMERICS in a timely manner, for monitoring the rating assigned by INFOMERICS. In the event of failure on your part in furnishing such information, to carry out continuous monitoring of the rating of the bank facilities, INFOMERICS shall carry out the review/annual surveillance on the basis of best available information throughout the lifetime of such bank facilities as per the policy of INFOMERICS.

**Credit Rating – Long Term Rating Scale**

*Long term: Original maturity exceeding one year*

Rating Symbol	Rating Definition
IVR AAA	Securities with this rating are considered to have the highest degree of safety regarding timely servicing of financial obligations. Such securities carry lowest credit risk.
IVR AA	Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk.
IVR A	Securities with this rating are considered to have adequate degree of safety regarding timely servicing of financial obligations. Such securities carry low credit risk.
IVR BBB	Securities with this rating are considered to have moderate degree of safety regarding timely servicing of financial obligations. Such securities carry moderate credit risk.
IVR BB	Securities with this rating are considered to have moderate risk of default regarding timely servicing of financial obligations.
IVR B	Securities with this rating are considered to have high risk of default regarding timely servicing of financial obligations.
IVR C	Securities with this rating are considered to have very high risk of default regarding timely servicing of financial obligations.
IVR D	Securities with this rating are in default or are expected to be in default soon.

***Modifiers {"+" (plus) / "-"(minus)} can be used with the rating symbols for the categories AA to C. The modifiers reflect the comparative standing within the category.***

The above rating scale also applies to rating of bank loans, fixed deposits and other instruments

### Credit Rating - Short Term Rating Scale

*Short term: Original maturity of up to one year*

Rating Symbol	Rating Definition
IVR A1	Securities with this rating are considered to have very strong degree of safety regarding timely payment of financial obligations. Such securities carry lowest credit risk
IVR A2	Securities with this rating are considered to have strong degree of safety regarding timely payment of financial obligations. Such securities carry low credit risk.
IVR A3	Securities with this rating are considered to have moderate degree of safety regarding timely payment of financial obligations. Such securities carry higher credit risk as compared to instruments rated in the two higher categories.
IVR A4	Securities with this rating are considered to have minimal degree of safety regarding timely payment of financial obligations. Such securities carry very high credit risk and are susceptible to default.
IVR D	Securities with this rating are in default or expected to be in default on maturity.

Modifier {"+" (plus)} can be used with the rating symbols for the categories A1 to A4. The modifier reflects the comparative standing within the category.

The above rating scale also applies to rating of bank loans, fixed deposits and other instruments.

Details of Facilities/Instruments are in Annexure 1.

Facility-wise lender details are at Annexure 2.

Detailed explanation of covenants is at Annexure 3.

#### Detailed Rationale

Infomerics has assigned/upgraded/reaffirmed the ratings on the debt instruments/bank facilities of Tourism Finance Corporation of India Limited (TFCI), factor in the improvement in AUM levels and asset quality during 9MFY26, along with the company's comfortable capitalization and diversified resource profile.

The ratings continue to reflect stable earnings performance, and established track record under experienced promoters and professional management. The ratings draw further support from the moderate but improving scale of operations, with AUM witnessing a revival from FY25

## Press Release

onwards and strong growth momentum during 9MFY26, driven by robust disbursements and lower prepayments. Asset quality indicators have improved significantly, aided by sustained recoveries, resolution of stressed assets, and strengthened monitoring mechanisms. The ratings also continue to factor in TFCI's experienced management, stable profitability supported by a low cost-to-income ratio, sound domain expertise in the hospitality sector, and its long operational track record.

However, the ratings remain constrained by the inherent risks associated with the NBFC business model and the intense competition in the lending space. The credit profile is also moderated by concentration risks in the loan portfolio, with sizeable exposure to top borrowers and relatively high-ticket sizes, which could lead to volatility in asset quality metrics in the event of adverse credit developments. Additionally, sectoral concentration, particularly towards the tourism and hospitality segment, exposes the company to cyclical risks.

The 'Stable' outlook reflects the expectation that TFCI will sustain growth in its AUM over FY26–FY27, supported by its established secured wholesale lending model and diversified portfolio mix. The outlook also factors in the company demonstrated expertise in the hospitality sector, alongside calibrated exposure to mid-income real estate and selective lending to manufacturing and NBFC segments. Further, the improvement of asset quality profile and resilient franchise in tourism financing is expected to support steady earnings, healthy spreads, and overall credit stability over the medium term.

### **Key Rating Sensitivities:**

#### **Upward Factors**

- Substantial growth in AUM while maintaining healthy capitalization, asset quality, profitability and liquidity.

#### **Downward Factors**

- Degrowth or subdued growth than expected growth in AUM and/or decline in liquidity and capitalization.

## Press Release

- Adverse movement in the collection efficiency, leading to deterioration in asset quality on a sustainable basis.

### List of Key Rating Drivers with Detailed Description

#### Key Rating Strengths

##### Improvement in asset quality:

TFCI's asset quality has shown a notable improvement during 9MFY26, with GNPA and NNPA declining to 0.38% and 0%, respectively, from their peak levels of 3.22% and 1.61% as on March 31, 2025. The improvement has been driven by SARFAESI recoveries, ARC settlements and stronger monitoring. The company's average collection efficiency remained healthy at 97.09% for the twelve months ended 28 February, 2026 while the on-time portfolio improved to 98.99% as on December 31, 2025, from 94.80% as on March 31, 2025, indicating strengthened recovery mechanisms and better portfolio performance.

However, the credit profile continues to be constrained by elevated concentration in the loan book, with the top 10 borrowers accounting for 44.50% of the total portfolio. This exposes TFCI to potential asset quality volatility in case of stress in any of these large exposures.

##### Stable earnings profile:

Net Interest Income (NII) grew to Rs. 106.69 crore in FY25, supported by a healthy interest spread and an efficient cost structure, with the cost-to-income ratio remaining low at ~18%. In 9MFY26, NII further strengthened to Rs. 103.60 crore, aided by higher disbursements and improved spreads. Net Interest Margin (NIM) stood at 6.34% in 9MFY26 stands improved as compared to 9MFY25 NIM of 4.65%, with growing Return on Average Assets (ROTA) of 5.60% in 9MFY26.

Profitability improved significantly, with PAT rising to Rs. 103.81 crore in FY25. The positive trend continued in 9MFY26, with total income reaching Rs. 202.89 crore and PAT increasing to Rs. 91.44 crore, reflecting a 24% year-on-year growth. The performance was supported by robust yields, efficient cost management, and prudent credit practices, ensuring sustained profitability.

## Press Release

### **Comfortable Capitalisation:**

TFCI maintained a robust capital buffer, supported by strong internal accruals. The CRAR stood at 59.01% in FY24, improved to 69.70% in FY25, and remained comfortable at 58.13% as of 9M FY26, notwithstanding the growth-led increase in risk-weighted assets. The tangible net worth increased steadily from Rs 1,089 crore in FY24 to Rs 1,216 crore in FY25 and further to Rs 1,272.85 crore in 9MFY26.

Gearing remained low and within comfortable limits, improving from 0.90x in FY24 to 0.72x in FY25, and marginally rising to 0.75x in 9MFY26 with incremental borrowings.

### **Moderate scale of operations, albeit degrowth witnessed in AUM in the last 3 years:**

TFCI's scale of operations remains moderate but has shown a clear upward trajectory. AUM, which had declined for two consecutive years ; falling from Rs 1,977 crore in FY22 to Rs 1,621 crore in FY23, and further to Rs 1,589 crore in FY24 revived in FY25 to Rs 1,694 crore, supported by improved disbursements of ~Rs 915 crore and lower prepayments.

The company registered strong portfolio accretion during 9M FY26, with AUM increasing to Rs 2,036 crore, led by disbursements of Rs 938 crore and significantly lower delinquencies.

The earlier degrowth in FY23–FY24 was primarily caused by elevated prepayments (Rs 600+ crore annually), which offset healthy disbursement momentum. The resumption of AUM growth in FY25 and the sharp uptick in 9M FY26 reflect improved market demand and better loan retention.

### **Measured diversification through AIF investments and strategic initiatives:**

The company has adopted a measured diversification strategy by entering into Alternate Investment Funds (AIFs). It has committed Rs 25 crore to a hospitality-focused hybrid fund (80% equity and 20% debt) and plans to invest Rs 50 crore in a real estate debt fund. Additionally, the company is exploring inorganic growth opportunities and has received in-principle approval to co-sponsor AIFs in hospitality and real estate. This approach allows TFCI to expand its investment avenues while remaining aligned with its core competencies.

## Press Release

### **Long track record of operations with experienced promoters and professional management:**

TFCI was established in 1989 and has a long track of providing financial assistance to various sectors for more than three decades. TFCI's AUM is geographically well spread across India. Mr. Anoop Bali, Managing Director, is experienced finance personnel with over three decades of experience and takes care of day-to-day operations.

### **Key Rating Weaknesses**

#### **Inherent risks associated with NBFCs coupled with intense competition:**

TFCI's loan portfolio is moderately diversified, as on 31 December 2025 with the largest exposure in hotels at 54%, followed by real estate at 16% and manufacturing at 11%. Other segments include infrastructure and social infrastructure (6%), loans against securities (5%), NBFC exposure (4%), and ARC/other exposures (4%). Geographically, the portfolio is concentrated in key states such as Uttar Pradesh, Maharashtra, Gujarat, Delhi, and Karnataka, which together account for the bulk of its exposure.

While TFCI has gradually extended its lending to sectors such as manufacturing, MSME, and real estate, product diversification remains limited, with tourism and hospitality continuing to remain dominant in their total portfolio. This concentration exposes the company to cyclical risks associated with hospitality and real estate, as well as prepayment and refinancing risks that could influence loan growth. These risks are mitigated through TFCI's secured lending approach, conservative underwriting standards, strong recovery record, and adequate provisioning buffers, supporting financial stability and disciplined portfolio management.

## Press Release

### **Liquidity: Strong**

TFCI has strong liquidity with a total CRAR of 58.13% and a net worth of Rs 1254.33 crore with a gearing of 0.75x in 9MFY26. TFCI also has an adequately matched ALM profile with no negative cumulative mismatches across various buckets as on 31 December, 2025 . Apart for this, TFCI has a liquidity in the form of cash and cash equivalent of Rs 86.75 crore as on 31 December 2025, which provides additional liquidity comfort.

### **About the company**

Incorporated in 1989 TFCI) is a Delhi-based NBFC-ML, with over three decades of experience in financing the tourism and hospitality sector. The company operates a niche secured wholesale lending model, with a diversified presence across real estate, manufacturing, and select NBFC exposures, while maintaining strong expertise in project financing and structured lending. The company is listed, with a widely dispersed shareholding, wherein promoters primarily LIC and The Oriental Insurance Company hold a modest 3.85% stake.
